Ertan Yildiz

Curriculum Vitae (CV)

What job i'm looking for? My positive points

With more than two years of experience adapting to new technologies very quickly, constantly looking for new technologies, solutions.
- I have experience and knowledge in Agile, Scrum software development methods. - Working with microservices and monolithic architectures.
- Have excellent technical skills, communication skills, and goal-focused professional offerings in the Computer industry. I am motivated and enthusiastic by new challenges and tasks and take an excellent approach to achieve success in all projects. I like to work on complex projects which have scope for learning and challenge.

I am currently working on Adesso as Java Developer and remote for Mercedes Benz(Daimler) Company.

Current Project:
(MES, Manufacturing Execution System) that is to be used to control the production of batteries for electric vehicles. To achieve this goal, MBFS has to communicate with various third-party systems and exchange information via different interfaces. High performance due to the use in a time-critical system (expected response times of sometimes less than 200 milliseconds) The highest demands on quality assurance with corresponding test coverage and automation
Used Technologies: Spring Boot, Docker, Microservice - Architecture, PostgreSQL, REST - Webservices, IBM MQ (MQSeries)

Preferred occupation	Java Developer jobs Computer jobs
	Java Web Developer jobs Computer jobs
Preferred work location	Dublin Ireland
