Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am a qualified medical practitioner having graduated from Buenos Aires University in 09/11/1998. Since gaining my degree, I have worked in Argentina and more recently Spain as a General Practitioner and in the field of radiology and ultrasound in both hospitals and clinics. Having lived and worked in Spain for more than three years, I have the necessary documentation to work in other

countries in the European Union. I also have letters of good standing from Argentina and I am In the middle of the process of registration with the Irish Medical Council.

If I were considered suitable for employment in a practice in Ireland, I would bring a high level of competency, professionalism and a devotion to patient care. I also believe that my level of English is

more than adequate to deal with patients in Ireland.
